

## TDV at Chamberlain Elementary School

Second grade students, Michayla Streeter and Bailey Burt, were working on a school project involving therapy dogs when they discovered our Web site. Michayla E-mailed TDV asking if we could bring some dogs to her school. After contacting her teacher, Ms Buley, Steve & Lessie Reiman brought Micro and Karen Nolan brought Gus to visit Michayla and Bailey's class.

The students learned about what makes a good therapy dog while Micro and Gus entertained them with their tricks. Michayla and Bailey then showed the PowerPoint Presentations they had created for this project. We think they both earned A+ for their effort and everyone had a wonderful time.
